

# BOGDAN NICULESCU

## JUNIOR SOFTWARE DEVELOPER

### TECH SKILLS

#### LANGUAGES

HTML 5  
CSS 3/SCSS  
JAVASCRIPT

#### TOOLS

GIT  
UNIT TESTING  
JEST/ENZYME/YARN  
BOOTS TRAP  
REACT  
FIREBASE  
@ REACH/ROUTER  
POSTMAN  
OBJECT ORIENTED PROGRAMMING  
REST API  
AGILE SOFTWARE DEVELOPMENT

### HOBBIES

PHOTOGRAPHY  
MUSIC (BASS  
GUITAR)  
BASKETBALL  
COMPUTER GAMES

### PROFILE

I'm a junior software developer with a passion for both front and back end development. I aspire toward a career that will allow me to channel my creativity through crafting beautiful software and engaging experiences. I am now looking for a challenging role in the tech industry where I can build on with the skills that I have learnt on the course. My goal in the future, is to become a full stack developer.

### EXPERIENCE

\_NOLOGY - 01/2020 - 04/2020

#### **JUNIOR SOFTWARE DEVELOPER**

12 week project based training course, involving the development of a prototype web application for an external client using React.js, as well as working on challenges and personal projects. Here I learnt the fundamental skills required to become a Junior Software Developer. Half of the training course I did it remotely including the work to external client. Agile working environment, with daily stand up-stands and weekly retrospectives.

Highly collaborative work, involving many group projects, with our client project being executed wholly using pair programming. Experience in Test Driven Development using Jest and Enzyme. Created applications using Firebase for authentication, no SQL database and hosting.

PERSONAL ACHIEVEMENTS: - Award for best tech of the week.

PANASONIC MANUFACTURING UK - 10/2017 - 01/2020

#### **SERVICE TECHNICIAN**

As a technician, I was inspecting, repairing and testing both hardware and software, tough-book units from our clients. I was working in Demo department where I managed to implement a workflow for testing and repairing units.

### EDUCATION

UNIVERSITY OF HORTICULTURAL SCIENCE

Bachelor degree in horticultural science.

Studied between October 2000 - June 2006 in Timisoara, Romania

NATIONAL COLLEGE OF ATHLETICS

Studied between September 1996 - June 2000 in Deva, Romania
